I、31-33

Hi, I'm Peter. Two years ago, I was the shortest on my school basketball team. I was the slowest and always got the fewest points. Everyone was much taller, faster, and stronger than me. I felt very frustrated.

One day after practice, I was thinking about never coming back to the team. When I opened my bag to get ready to go home, I was stunned. There were many cards from my coach and teammates. They didn't ask me to stay. They just wanted me to be happy. How lucky was I to have these people in my life?

After that, I was the first one at practice every day, and I tried different ways to improve my skills. Now, I am the best shooter on the team although I am still not the tallest. Most important of all, I am very happy because my coach and teammates are always there for me.

Many twins have a lot of similarities; however, they have different personalities.

Twins have to share everything from the very beginning—inside their mommy's womb and after birth. Many times, one may feel unfair that the other one gets better things. That's why many parents dress them the same, feed them the same, and buy them the same toys. It is true that when one is sick, the other may get sick, too. This often happens because they share so many things together.

As they grow up, individual differences will be more apparent. They will have friends or preferences. After all, each of them is an individual person. God gives everyone different gifts

- \* Model Cara Dean was thinner than usual in her black dress. However, why did she draw cherry blossoms on the back of her hands? Aren’t cherry blossoms Japanese?
- \* Actress Sarah Park also wore flowers to the party, but all the roses on her shirt and jeans were just as bad as Cara’s look. Also, what do roses have to do with Chinese culture?
- \* Singer Lora Rogers was in a yellow dress yesterday. The color was right, but the shape was wrong. She was like a hot dog.
