七、閱讀測驗：每題 2 分

During the past one hundred years, there have been many inventions that make our life much easier and more interesting. TV is one of them. Many people enjoy watching TV for fun. Some even believe that TV has made their children smarter because there are all kinds of information on it — news, science, sports, and language. Children can learn a lot from TV in a short time without going out. Many parents are happy about this because they themselves are too busy to spend time with their children.

But we have found that more and more children today have problems with reading and thinking even though they have watched a lot of TV. In fact, getting information from TV doesn't mean real learning. Children who watch too much TV do not have enough time to think or to talk with people. Besides, it takes time and love for children to grow up. What children need most is their parents. We should teach our children what real life is without TV. After all, machines should not be more important than people.

46. () What do many people enjoy watching TV for?

- (A) For being smarter. (B) For fun.
- (C) For more news. (D) For problems.

47. () What can't you get from TV?

- (A) Information about science.
- (B) Information about sports.
- (C) Fun.
- (D) Parents' love.

48. () Why do many parents make their children sit in front of the TV?

- (A) Because they don't have much time to spend with their children.
- (B) Because the TV is more important than themselves.
- (C) Because they spend money buying the TV.
- (D) Because their children don't need them.

49. () Which is true?

- (A) Children who watch a lot of TV don't have any problems with reading and thinking
- (B) TV can teach children what the real life is.
- (C) Children who watch too much TV do not have enough time to think or to talk with people.
- (D) Children who watch a lot of TV are smarter than those who don't watch TV.

50. () What children who are growing up need most is _____.

- (A) a good TV
- (B) their parents
- (C) a lot of information from TV
- (D) good inventions which make life easier and more interesting
