When it comes to Halloween, we think of ghosts. In Taiwan, we also have a whole month for ghosts. It is the seventh lunar month. During this month, the ghosts are allowed to come out from the Hell. They spend the month visiting their family, feasting, and looking for victims. Many people believe that Ghost Month is the most dangerous and worst time of the year, so they may avoid starting a new business, going out in the evening, swimming, traveling, moving house, and hanging wet clothes outside at night. It sounds scary, doesn't it? In fact, it is time for us to show our respect to our ancestors and the ghosts without family. We offer food, burn money, and perform special ceremonies for them. If we respect the ghosts and do everything carefully, we don't need to be so afraid of Ghost Month.
