#### Ugly Fruits and Vegetables

In the store, fruits and vegetables are beautiful and in good shapes. But not all produce looks good. Sometimes, vegetables grow crooked or fruit is the wrong color. Those ugly foods are not in the stores. We throw them away. Some people want stores to sell "ugly" fruits and vegetables. They say we have to cut down on food waste. Ugly produce may be different-looking, but it is fresh and delicious.

Some food stores started selling ugly fruits and vegetables. They call the ugly foods "produce with personality" and sell them at lower prices. They post funny pictures of ugly produce on the Net. The stores hope people like the pictures and will buy these fruits and vegetables. It is important not to waste good food.
