四、閱讀測驗 12% (每題 2 分)

A. 4%

This post is about Times Square on New Year's Eve with tips on how to get a good spot to celebrate and watch the ball drop. There is no cost to watch the ball drop and no ticket is needed, but you will need to be aware of a few things and make a plan. Be sure to read our "Guide to Christmas in New York City" and our "self-guided tour of Times Square" on the Internet.

post 貼文 be aware of 留意

1. What might be the title for the post?
(A) Watch the Ball Drop in Times Square on New Year's Eve
(B) How to get a free ticket for viewing the ball drop
(C) Christmas in New York City
(D) Happy New Year
2. What does the writer suggest(建議) us to do before we visit Times Square?
(A) To get a good spot
(B) To require a free ticket
(C) To read the other guides and make a plan
(D) To celebrate and watch the ball drop first

B. 8%

Most people are awake during the day and sleep all night. Owls live the other way. They sleep all day and stay awake at night. They also hunt at night. However, finding food in the dark is difficult. So, they develop special eyes and ears to help them hunt.

Owls have very large eyes. These eyes get more light than small ones. **They** help owls find food in the dark. Owls also have very good hearing. Even when owls are in the trees, they can hear small animals moving in the grass below. This helps owls catch their prey even in the dark.

Like owls, mice also keep awake at night. Mice have a good sense of smell. It helps them find food in the dark. Being awake at night helps mice to hide from many different animals like birds and snakes. Those animals like to eat mice but they sleep at night—except, of course, owls!

awake 醒的 owls 貓頭鷹 hunt 獵食 develop 發展出
hearing 聽力 prey 獵物 sense 知覺

1. In the second paragraph(段落), an animal with small eyes _____.
(A) must eat at night
(B) may have trouble seeing in the dark
(C) can see very well at night
