III. (4%)

On most weekends, an 8-year-old girl, Zoe Stone, is sitting in front of a computer, but she isn't playing games or watching videos. She is learning how to code. Code is a set of instructions. It tells a computer what to do. Coders make websites and apps. Apps are very useful in our daily lives, like playing games, reading news or checking the weather.

Zoe loves coding because it is interesting. She can show her creativity in the apps she made. How did Zoe learn how to code? She takes classes on a website, Code.org. It offers hundreds of free coding lessons for kids. The president of Code.org. said, "Computers are part of our world today. It is important for kids to know how they work."
